Modern languages
* French (mother tongue)
* English (fluent)

Software
* Sublime Text
* Git / SVN
* Vagrant
* Docker
* PHPUnit
* MySQL Workbench
* Grunt / Gulp
* Fabric

Work experience_

From May 2015 to November 2015 (contract)_

PHP backend developer @Earnaway (LONDON), a hotel booking platform aggregating offers from multiple online travel agencies (OTAs) and offering cashback on the bookings. **API driven architecture** (using **Lumen**) and **TDD** (**PHPUnit**), I implemented the authentification system (**JWT**) and integrated a few OTAs. I also built the **Laravel** layer of the frontend, consuming the API and transforming the data for the client, and implemented functionalities for the admin. *http://www.earnaway.com*

From January 2013 to March 2015_

Web developer @Codegent (LONDON), a digital product studio. At Codegent, I got the chance to work on **e-commerce** websites such as **tepilo.com** (CodeIgniter) and selinascott.com (**Laravel**), using **Sagepay** and **Stripe** as payment systems. I also built the new **twilert.com** website and the first version of vizibl.co with **AngularJS**, developed a few **RESTful APIs**, maintained and upgraded the **bespoke CMS** and worked on other websites such as ilumi.com or ur7s.com. *http://www.codegent.com*

From June 2011 to December 2012_

Web developer @R'Fidelity, Rentabiliweb group (PARIS) Subsidiary office running the mailorama.fr and cash-back.com websites. My missions were to set up **Zend projects** (made a Zend quick start for that purpose), to be **lead developer** for a website offering deals (Groupon like), to build **REST APIs** for mobile applications, maintain various PHP projects and to write technical docs. I was also in charge of all internal mobile developments (notably developed a push notification management system). *http://www.rentabiliweb.com*

From July 2010 to June 2011_

Web developer @Oxent (PARIS) Start-up sponsored by "Petit Poucet" (a French VC), notably responsible for the organization of the ESWC (E-Sport World Cup). My main mission was to develop and maintain **Gamersband** (http://www.gamersband.com), a **social network** for gamers built with **Zend Framefork**. *http://www.oxent.net*

From September 2007 to July 2010_

Web developer @Seegne (CAEN, FRANCE), a web agency. Hired at the end of my work placement, I was mainly responsible for the development of **PHP back-ends** (I created a **bespoke CMS** for this purpose) and design templating. *http://www.seegne.com*

From June 2007 to August 2007_ *Intern @Seegne (CAEN, FRANCE)*

From April 2006 to June 2006_ *Intern @Institute of Technology (TRALEE, IRELAND)*

Interests_

Sports (running / swimming / English boxing), **Cinema** (movies / series), **Music** (listening / concerts / festivals), **Travels,** **Writing** (I maintain a blog over here: http://blog.osteel.me), **Street Art** (http://instagram.com/osteel), **Video Games**
